RACING WITH AUTISM

To whom it may concern,

I am contacting you today to offer you and your school a wonderful opportunity to host one of the most inspirational presentations you will ever have the chance to see. My name is Jason Riley and I am the founder of an organization called Racing with Autism. Racing with Autism is centered around my autistic son Austin who has struggled to find acceptance in school and in life.

Our purpose is to share, educate and inspire students with Austin's incredible journey of struggles and successes while he continues to chase his dreams in motorsports. Austin made history in 2020 becoming the first person with autism in the world to win a National car racing championship by winning the 2020 Radical Canada Cup. A feat he repeated in 2021. Austin has become quite the celebrity in motorsports as well as an inspiration to children and people with and without autism all over the world. We have presented Austin's story in schools right across North America, Australia, Bermuda and the United Kingdom to well over 100k students.

In regard to the presentation itself, it takes about 55 mins from beginning to end and that includes, a slide show that goes along with script, an educational Autism video, which highlights the most common traits with the disorder. We finish off with a 5min extremely inspirational video, which shows some of Austin's accomplishments, people he's met on his travels and some of the amazing adventures he has been on. We usually follow that with a question period, and we try to limit that to 10 or so questions to keep time to a minimum.

After questions we invite the students to come up and meet Austin and get signed hero card from him, which will serve as a reminder for them to follow their dreams. We are targeting grades from 2-12 but we are able to do younger groups upon request. What we need..... Projector and a screen and we provide everything else. Let me know if you have any questions.

""Hands down the best school assembly we've ever had. Staff and students have been talking about this all day and Austin's story will continue to generate rich discussions in classrooms from grades 1-8 for days and weeks to come. In my 15+ years of teaching, I have never been so moved or inspired by a guest speaker, nor witnessed an entire student body react with such engagement and enthusiasm. Bravo Austin, Dad, and the entire team/crew!!! Keep on Racing with Autism!!!"
